CONTAMINANT ELIMINATOR PAD

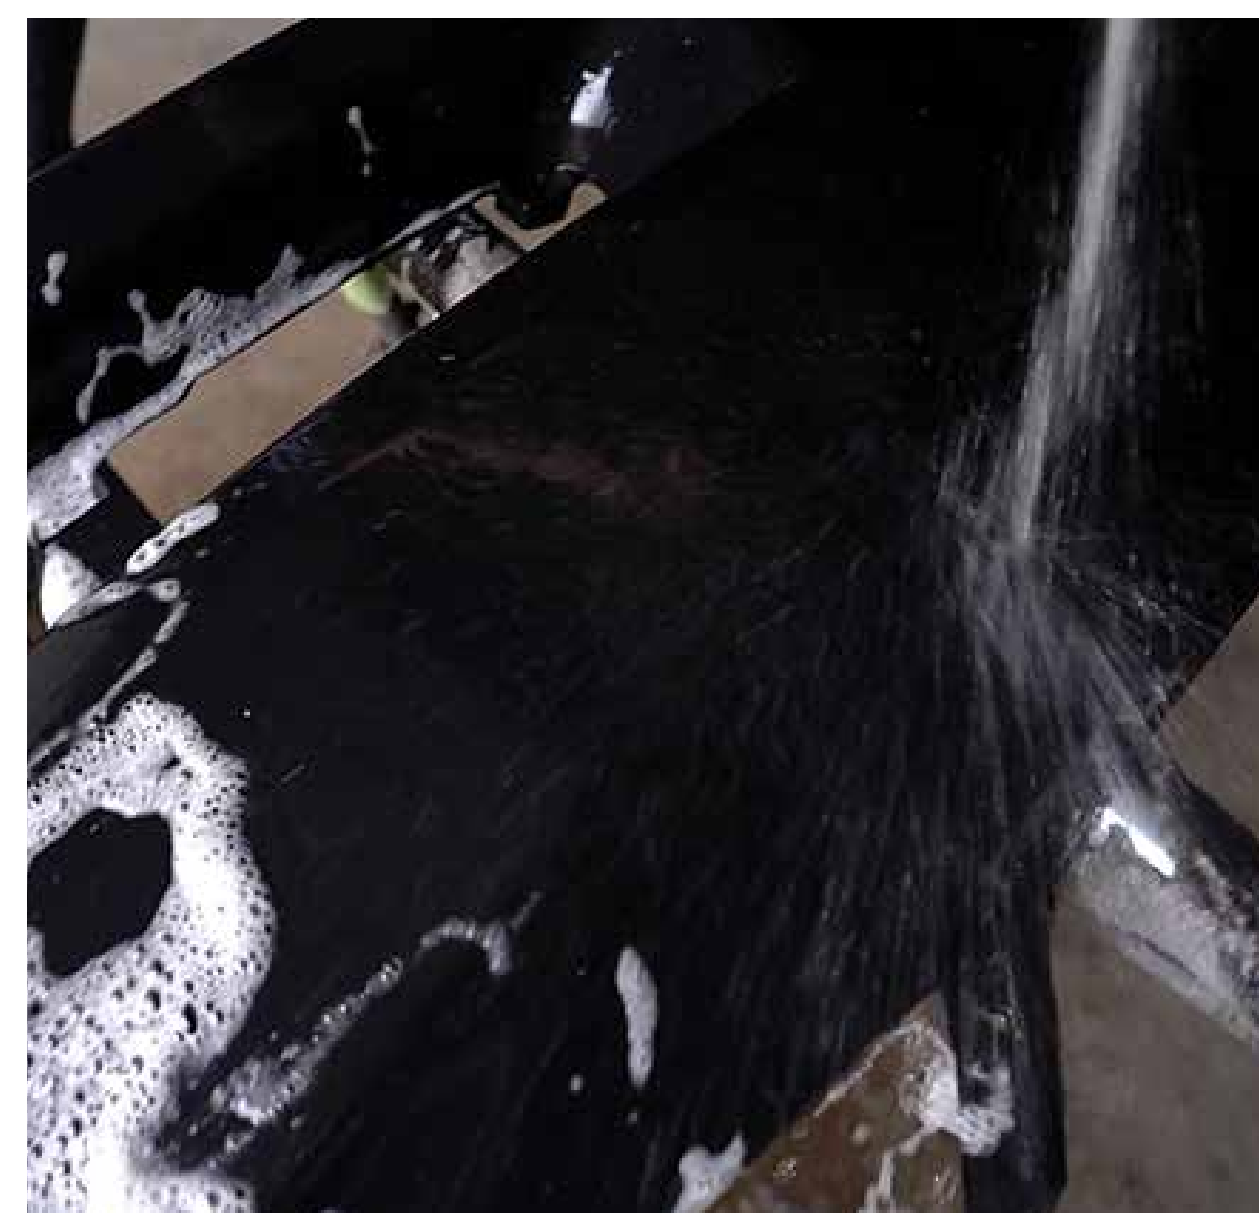

STEP 1:

CLEAN

Thoroughly wash and rinse vehicle free of dirt and debris. Remove any tar and/or grease prior to application.

Use **ONLY** on clean, cool surfaces. Adequate lubrication is critical to the REVvive by RSG Contaminant Eliminator Pad application and **WATER IS NOT AN ACCEPTABLE LUBRICANT**. Prior to use, test in an inconspicuous area in case of unexpected adverse effects on surface.

Farécla All-Purpose Microfiber Towel (Blue)	666233 91497

STEP 2:

LUBRICATE

Mist sufficient lubricant onto the surface evenly.

This product will safely and easily remove:

- Overspray
- Brake and Rail Dust
- Water spots
- Other Bonded Contaminants
- Fresh Tree Sap

Tip: The REVvive by RSG Contaminant Eliminator Pad has a protective coating. To break in the pad, moisten with a lubricant. Moisten a portion of a glass surface and rub the pad in circular motion for 60 seconds. You may see a white soapy foam. This is the protective sealant coming off. Don't use until the polymerized rubber is soft and slightly tacky.

STEP 3:

POLISH

Polish the surface with REVvive by RSG Contaminant Eliminator Pad using light pressure. For use by Dual-Action Tool or hand on these surfaces:

- Automotive Paint
- Plastic
- Glass
- Chrome
- Moldings

Tips:

- Cold temperatures may stiffen pad. Warm surface before using.
- **DO NOT** use with rotary polisher.
- REVvive by RSG Contaminant Eliminator Pad is not solvent resistant. Avoid contact with solvents.

STEP 4:

WIPE CLEAN

Wipe off residue.

Tip: If pad is dropped, simply rinse clean with water and continue to use.
